

School Funding and Action Committee
February 8, 2011
7:00 PM
SUMMARY

We did not meet in January because there was nothing really going on with state funding at the State level.

This meeting we need to update our goals and purposes for posting on the district website. They needed to be approved at the Wednesday BOE meeting.

We talked about school reform and organizations like studentsfirst.org and donewaiting.org and the future of school reform in Olentangy.

Eileen Watts discussed responses from a recent coffee chat that she attended with Dr. Lucas.

Started to blueprint plans about our role in the district in regard to local officials such as Rep. Brenner and Senator Jordon and their role in supporting education and how it will affect Olentangy.

We discussed current unfunded mandates that are currently on the table and how/if they will require funding from the district.

Talked about setting up the School Finance 101 classes again.

As always, we continue to talk about the list serve and how we can use it to keep residents better informed about issues affecting the district at the State level.
