Olentangy Academic Resources

Propelling high achieving children forward...

Our Vision:

We envision highly achieving students receiving an appropriate educational experience that matches their abilities and potentials. We strive for a place where there are ample opportunities for their intellectual challenge and growth, and people who work with them to recognize, understand, and nurture their unique talents.

Our Mission:

To serve as an advocate for high achieving children of our school district by actively working with teachers, principals, curriculum directors and school board members, as well as supporting their efforts in ensuring that the high achieving students of Olentangy have every opportunity to maximize their learning experiences both in and out of school settings.

To provide a forum of communication among the parents of Olentangy's high achieving students, where ideas, information and concerns can be shared as well as supported through our network of advocates.

Join Us to Discuss and Learn:

Join the discussion! Share ideas and points of view with others who are interested in issues and resources for high achieving children. Sign up today via e-mail to get updates, receive new opportunities for your children and to chat and learn from each other.
