

## School Funding Action Committee

The following is a summary of the Committee's meeting held Monday, March 26:

Julie Feasel, board liaison, reported that no board members had requested changes to the school funding brochure. The brochure had been distributed to board members before their March 20 meeting. The committee and others had three minor grammatical and clarification changes to the brochure. Elinor Clark, chair, will make those changes and then get a final .pdf file to Carole Bell for distribution. The committee suggested issuing the brochure with a cover letter from the school board. The brochure will be distributed in backpacks to parents of elementary school children and distributed through the listserve for middle and high school parents. The brochure will also be posted on the district's web site.

Becky Jenkins presented the group with highlights of the impact of the proposed constitutional amendment and the governor's school funding proposal. The committee discussed the impact of both proposals on the school district. Becky Jenkins and Carole Bell will draft an update on the proposals that will be distributed to parents via the listserve.
