I understand that:

1. Students are enrolling in college level courses. These courses become part of the student’s permanent academic record, including both the high school and college transcripts and GPAs. Courses taken for high school graduation credit may impact a student’s ability to graduate high school.

2. Students who fail and/or withdraw from course(s) after the 14th day of the semester may be billed by their school district for all tuition and fees associated with those courses. A student may withdraw from a class prior to the college’s withdrawal date and receive a “W” on the college transcript, which will not affect the college GPA. Students who wish to drop a college class should consult with their school counselor and Columbus State Community College academic advisor before doing so.

3. Students may not register for more hours than indicated by the school counselor/principal, in alignment with State regulations. If a student registers for more hours than allotted, the family will be billed by Columbus State Community College for all tuition and fees associated with those courses.

4. Parents should never contact instructors regarding student progress, attendance, assignments, etc. All communication regarding the student must be handled through the College Credit Plus Office and/or the school counselor in accordance with the Family Education Rights and Privacy Act (FERPA).

5. Parents are not permitted to attend courses with students unless the parent is registered for the course as a paying student.

6. If the student is taking course(s) on a CSCC campus or Regional Learning Center, the student may be in class with adults who come from a variety of backgrounds, ages, and criminal histories. Students may be required to interact with classmates on group work/projects inside and outside the classroom.

7. Course subject matter may include mature themes and materials and will not be modified based upon College Credit Plus student participation.

8. If the student has a documented disability, it is the student’s responsibility to request necessary accommodations through the college’s Office of Disability Services.

9. Completion of this consent form does not guarantee admission to a specific program or course. To add courses, students must meet course placement and/or prerequisites and submit a registration form.
