Enrollment Projection Update October 2015

## Olentangy Local Schools

## AKNOWLEDGEMENTS

FutureThink would like to extend our appreciation to the Olentangy Local Schools for choosing us to assist them in developing these enrollment projections. In addition, thank you to Michelle Murphy and Ralph Au.

Future growth in the Olentangy Local School District Community will have a significant impact on the school facilities and student population. The following information will continue to provide the District with a valuable planning tool to assist in determining the future direction of its school system.

As a consulting team, we appreciate this opportunity to serve your school community as you embark on your vision for the future of education in the Olentangy Local Schools.

Tracy Healy<br>President

# Olentangy Local Schools 

## INTRODUCTION

FutureThink has provided enrollment projections for the Olentangy Local Schools annually since 1998. For several years, enrollment was projected using a methodology based on new housing starts due to the explosive growth seen in the District primarily from 1997-2005. Single-family building permits peaked in 2004228 under 250 permits have been issued through June of this year.

## 2008 Projections

In 2008, FutureThink developed enrollment projections based on a methodology to better reflect the economic conditions of the time. Three basic assumptions were made:

- Kindergarten enrollment would continue to be negatively impacted by the reduced housing starts for the next few years. It would then start to level off.
- First grade growth would continue as it has. Traditionally, there is an increase in first grade enrollment from kindergarten the previous year. This is due, in great part, to parents choosing a private, all-day kindergarten program then enrolling their child in the district for first grade.
- Grades 2-12 would see a greater growth than previously anticipated through 2009-10 due to students leaving the private and parochial schools for financial reasons. After 2009-10, the growth rate would then slow.

## 2009 Projections

While the enrollment projections from 2008 were highly accurate [within 10 students total for the first year], there was concern raised regarding the kindergarten enrollment. Actual kindergarten enrollment for 2009-10 was 71 students higher than projected. Based on this, kindergarten enrollment was projected to grow at $4.6 \%$ in 2010-11, from a base of 1,344 students [kindergarten registration count]. Following 2010-11, growth was projected to be approximately $0.5 \%$ from the previous year until 2019-20.

## Olentangy Local Schools

## 2010 Projections

While the enrollment projections from 2009 were within less than 1 percent of the actual enrollment, there was again concern raised regarding the kindergarten enrollment. Actual kindergarten enrollment for 2010-11 was 63 students lower than projected.

To better address kindergarten enrollment, births in the area were incorporated into the projections for years 2011-12 - 2013-14. In 2013-14, a growth factor of $7.2 \%$ was applied to account for growth due to the implementation of all-day kindergarten. Starting in the 2014-15 school year, a $0.5 \%$ growth factor was applied to the previous year's enrollment. For first grade, the average survival ratio of the past 2 years was used for kindergarten to $1^{\text {st }}$ grade through 2013-14. Starting in the 2014-15 school year, the growth factor was reduced to $6 \%$ to account for the increase in kindergarten enrollment due to all-day kindergarten implementation.

## 2011 Projections

Overall, the methodology used in 2010 was successful. Kindergarten enrollment was within 7 students of the projection. The difference between the actual and projected enrollment for Pre-K-12 was 83 students or 49 percent.

For 2011, we used the same methodology with two minor modifications. Due to the change in legislation regarding all-day Kindergarten, we did not incorporate the additional growth factor for kindergarten in the 2013-14 school year. We incorporated births in the area for years 2012-13-2013-14. For the years 201415 - 2021-22, a 0.5\% growth factor was applied to the previous year's enrollment. For first grade, the average survival ratio of the past 2 years was used.

Additionally, an "end of year" projection for the 2011-12 school year was included.

## Olentangy Local Schools

## 2012 \& 2013 Projections

Overall, the methodologies used in 2010 and 2011 were successful. The difference between the actual and projected enrollment for Pre-K-12 was 117 students or .66 percent.

For 2012 \& 2013, we used the same methodology as 2011 with one modification. The preschool projection was based on kindergarten enrollment rather than simply adding 34 students each year as we did in 2011.

## 2014 Projections

In 2014, we have provided two sets of projections:

- One using the same methodology as last year
- The second incorporating a housing factor.

The second projection adds a housing component to the methodology. For the 2015-16 school year, the same methodology as above was used. For subsequent years, a housing factor was incorporated. This factor was determined by the survival ratios which occurred in the 2005-06 and 2006-07 school years. New single-family housing development at that time averaged in the 700 range.

## 2015 Projections

This year, we have used the same traditional "smoothing" method used in 2012, 2013 and 2014. We have also provided a second projection with a housing component based on new single-family housing development at a rate of 500 new homes per year.

As with any enrollment projection, there are a number of factors that can influence future growth-either positively or negatively. Due to the uncertain economic conditions we are currently living in, it is impossible to know how quickly the housing market will recover and to what extent.

## Olentangy Local Schools

## ENROLLMENT COMPARISON

The difference between the actual and projected enrollment for the 2015-16 school year is only 4 students or less than one-tenth of 1 percent.

The grades with the greatest difference were preschool, $K, 3$, and 4 , respectively.

The following table illustrates the difference by grade.
Olentangy Local School District

|  | Actual, 2015-16* | Projected | Difference | Percentage |
| :---: | :---: | :---: | :---: | :---: |
| Pre-K | 372 | 299 | -73 | -19.62\% |
| K | 1,270 | 1,229 | -41 | -3.23\% |
| 1 | 1,423 | 1,403 | -20 | -1.41\% |
| 2 | 1,522 | 1,517 | -5 | -0.33\% |
| 3 | 1,449 | 1,490 | 41 | 2.83\% |
| 4 | 1,586 | 1,627 | 41 | 2.59\% |
| 5 | 1,646 | 1,645 | -1 | -0.06\% |
| K-5 Total | 8,896 | 8,911 | 15 | 0.17\% |
| 6 | 1,678 | 1,708 | 30 | 1.79\% |
| 7 | 1,588 | 1,612 | 24 | 1.51\% |
| 8 | 1,564 | 1,554 | -10 | -0.64\% |
| 6-8 Total | 4,830 | 4,874 | 44 | 0.91\% |
| 9 | 1,519 | 1,517 | -2 | -0.13\% |
| 10 | 1,463 | 1,462 | -1 | -0.07\% |

## Olentangy Local Schools

## HISTORICAL ENROLLMENT

Over the past ten years, the PreK-12 enrollment in the Olentangy Local Schools has increased by 7,553 students or 62 percent. Total enrollment for the 2015-16 school year is 19,658, an increase of 602 students, or $3 \%$, from the previous school year.

The following table and graphs illustrate the District's enrollment history from 2006-07 through 2015-16.

## LIVE BIRTH DATA

Utilization of live birth data is recommended when projecting future kindergarten enrollments. This data provides a helpful overall trend. Large bubbles in birth counts, either up or down, can also be planned for or anticipated by the District.

In addition, the live birth counts are used in determining a birth-to-kindergarten survival ratio. This ratio identifies the percentage of children born in a representative area who attend kindergarten in the District five years later. The survival ratios for birth-to-kindergarten as well as grades 1-12 can be found later in this report.

The Ohio Department of Health [ODH] data warehouse provides information about live birth events for Ohio residents. Information about events occurring outside of Ohio to Ohio residents is included. Information about events occurring inside Ohio to non-Ohio residents is not included.

Data is arranged by the residence of the mother. For example, if a mother lives in Powell, Delaware County but delivers her baby in Columbus, Franklin County, the birth is counted in Powell, Delaware County.

The number of live births is recorded by:

- State
- County
- City/Town
- Census Tract
- Address [not available to the public]

Live birth counts are different from live birth rates. The live birth count is simply the actual number of live births. A birth rate is the number of births per 1,000 women in a specified population group. Birth rates are provided for counties and for 9 age groups from 10-14 years to 45+ years.

## Olentangy Local Schools

The following chart and graph include the live birth count for zip codes 43015, 43016, 43017, 43021, $43035,43065,43074,43081,43082,43235$, and 43240 . However, upon analysis of the map on page 10, only zip codes 43035,43065 , and 43240 were used for projection purposes.

## Olentangy Local Schools

Included are block group estimates and projections provided by ESRI Business Information Solutions (ESRI BIS). ESRI BIS uses a time series of estimates from the U.S. Census Bureau that includes the latest estimates and intercensal estimates adjusted for error of closure. The Census Bureau's time series is consistent, but testing has revealed improved accuracy by using a variety of sources to track county population trends. ESRI BIS also employs a time series of building permits and housing starts plus residential deliveries. Finally, local data sources that tested well against Census 2000 are reviewed. Data sources are integrated and then analyzed by Census Block Groups.

Sources of data include:

- Supplementary Surveys of the Census Bureau
- Bureau of Labor Statistics' (BLS) Local Area Unemployment Statistics
- BLS Occupational Employment Statistics
- InfoUSA
- U.S. Bureau of the Census' Current Population Survey
- National Planning Association Data Service

The following table illustrates the current estimates and 5-year population projections based on block groups that comprise the school district, indicating areas of current and projected growth in selected age groups.

The total estimated 2015 population in the District is 82,852 . This population is projected to increase by 9,546 people, or approximately $12 \%$ over a 5 -year period. The $0-18$ year-old population in the District currently totals 27,251 . This population is projected to increase by 1,936 children, or approximately 7 percent.

Median and average household incomes in the District are projected to increase by approximately $11 \%$ and $13 \%$, respectively over a 5 -year period. The average family size is projected to increase slightly, and the number of family households is projected to increase by over 10 percent.

## HOUSING INFORMATION

The following chart illustrates housing trends in the Olentangy Local School District since 2004. The number of single-family permits peaked in 2004 then began to decline. In 2011, the permits totaled over 400 for the first time since 2007. For this year, the total through June is 228 permits, not including the City of Delaware.

## Olentangy Local Schools

## SURVIVAL RATIOS

The chart below demonstrates the changes in enrollment as students move through the system. Percentages greater than 100 indicate that there are more students than there were in the previous grade the previous year. In other words, there was growth and new students were added to the system. Percentages less than 100 indicate that there was decline or students left the system.

The following table illustrates the survival ratios used in developing the enrollment projections for the Olentangy Local Schools.

| from | to | birth -> K | K->1 | 1->2 | 2->3 | 3->4 | 4->5 | 5->6 | 6->7 | 7->8 | 8->9 | 9->10 | $10->11$ | 11->12 |

## Olentangy Local Schools

## ENROLLMENT PROJECTIONS

Based on the current trends seen in the District, FutureThink has provided two sets of enrollment projections. The first projection uses the same methodology as last year, which is outlined below.

## Projection \#1 - Traditional "Smoothing" Model

Pre-K
The preschool projection is based on kindergarten enrollment. We used the average of the last 2 years, a percentage of 27.69 percent.

## Kindergarten

For kindergarten, a $0.5 \%$ growth factor was applied to the previous year's enrollment.

## Grades 1-12

For grades 1-12, the average survival ratio of the past 2 years was applied.

## 2015-16 End of Year Projection

The 2015-16 "End of Year" projection was determined by applying the factor of .002 between the actual September 2, 2015 and previous projected enrollment for 2015-16 and adding it to the current enrollment.

For example, the current kindergarten enrollment is 1,270. By adding . 002 [or 3 students] to that number, the end of year kindergarten enrollment is projected to be 1,273 students.

## Olentangy Local Schools

Using last year's model, student enrollment is projected to increase by 1,869 students (or $10 \%$ ) in grades Pre-K-12 from the 2015-16 to the 2025-26 school year. An additional five years have been added to the projection for long-range planning purposes. The following table and graphs illustrate projected enrollments by grade and grade group through the 2030-31 school year.

## COMPARISON TO 2014 ENROLLMENT PROJECTION

Last year's projection is illustrated in the following table. For the 2024-25 school year, the difference between the 2014 projection $(21,123)$ and the current projection $(21,357)$ is 234 students.

The differences at each level in the 2024-25 school year are as follow:

- Pre-K - (+) 50 students
- K-5 - (+) 274 students
- 6-8-(-) 68 students
- 9-12 - (-) 22 students

## Olentangy Local Schools

## CONCLUSION

As with any projections, the District should continue to pay close attention to birth counts, enrollment in the elementary schools, housing growth, and demographics. Each of these factors will have an impact on future student enrollment.

FutureThink is pleased to have had the opportunity to provide the District with enrollment projection services. We hope this document will provide the necessary information to make informed decisions about the future of the Olentangy Local Schools.
